SEATTLE STUDY CLUB

8th Annual Symposium

ALL BUT MY LIFE
Ms. Gerda Klein

As architects of our future, we can build solidly only by recognizing our connection to the past. Myths and legends of heroes surmounting obstacles pervade our society mostly in the larger-than-life formats of historical epics; occasionally we find an individual among us who is willing to share the story of endurance in an intimate and human forum.

Author, historian and speaker, Gerda Weissmann Klein has captivated audiences worldwide with her powerful theory of surviving the Holocaust. Ms. Klein shares an uplifting story of her constant striving for the preservation of human rights which has earned her five Doctorates of Humane Letters, along with countless other awards and television appearances including 60 Minutes, Oprah, and CBS Sunday Morning.

FRIDAY EVENING

An opportunity to explore Seattle's restaurants and nightlife on your own.
